Mr. Elmer

**GIVE ANSWERS NOT GUESSES TO COUNSELORS, TEACHERS, DOCTORS**

Better communication with parents about their child's behavior. No more mixed messages—see how everyone is answering the same questions in real time. Give parents responses on demand and have a response history showing trends of a child's behavior and health. Parents become partners instead of passive receivers of information.

A CHILD'S IEP, 504, & BEHAVIOR TRENDS IN YOUR POCKET

Joint problem solving becomes the norm not the exception. Parents can see how their child's IEP factors have been assessed by teachers and counselors at any time. They will know if goals and targets are being met and where successes are happening. Parents can now track progress and request more information as needed.

SAFE, SECURE, & ALWAYS ACCESSIBLE

We're always on. Securely access the site at any time from your phone or computer. Customize what information gets shared. Add collaborators (teachers, doctors, coaches, family) for all or only some of the assessed behaviors.
